Description

NTPC Recruitment 2024

NTPC, India's largest power generation company, is seeking talented and ambitious individuals to join our team as Deputy Managers. In this role, you'll play a pivotal role in ensuring the efficient operation and maintenance of our power plants, contributing directly to the nation's energy security.

About NTPC

NTPC is a Maharatna public sector undertaking, leading the way in power generation in India. We are committed to providing reliable and affordable power while upholding the highest standards of safety and environmental responsibility. With a diverse portfolio of power plants across the country, we offer a dynamic and challenging work environment where you can make a real difference.

Why Join Us as a Deputy Manager?

- **Shape the future of power:** Be at the forefront of India's energy revolution, driving innovation and efficiency in power generation.
- **Growth and development:** We invest in our people, providing comprehensive training and development programs to help you reach your full potential.
- **Competitive compensation and benefits:** Enjoy a rewarding career with a competitive salary, comprehensive benefits package, and opportunities for growth.
- **Make a lasting impact:** Contribute to a sustainable future by working for a company committed to clean and reliable power generation.
- **Work-life balance:** We understand the importance of maintaining a healthy

Job Summary

As a Deputy Manager in NTPC, you will be responsible for a wide range of technical and operational tasks related to power plant operations and maintenance. You will supervise a team of technicians, ensure adherence to safety protocols, and contribute to continuous improvement initiatives. This role requires a strong technical background, excellent leadership skills, and a commitment to safety and quality.

NTPC Jobs Near Me

We are looking for talented individuals across India to join our team. No matter your location, we encourage you to apply if you are passionate about the power sector and have the drive to excel.

Key Responsibilities

- Oversee the operation and maintenance of assigned plant equipment, ensuring efficient and reliable power generation.
- Develop and implement work plans for preventive maintenance activities.
- Analyze plant performance data and identify areas for improvement.
- Conduct root cause analysis of equipment failures and implement corrective actions.
- Lead and motivate a team of technicians, providing coaching and development opportunities.
- Ensure strict adherence to safety protocols and environmental regulations.
- Contribute to continuous improvement initiatives by identifying and implementing process enhancements.
- Prepare technical reports and maintain accurate documentation.

Required Skills and Qualifications

- Bachelor's degree in Engineering (Electrical, Mechanical, Civil, or related field) from a recognized university.
- Minimum of 2-5 years of experience in power plant operations and maintenance (experience can be adjusted based on specific needs).
- Strong understanding of power plant equipment and systems.
- Excellent analytical and problem-solving skills.
- Effective leadership and communication skills.
- Commitment to safety and quality.
- Proficiency in technical software and data analysis tools.

Experience

This role is open to both freshers and experienced professionals. For freshers, a strong academic background and a willingness to learn are essential. Experienced professionals should have a proven track record of success in power plant operations and maintenance.
